Glass

Glass defects to be covered under this warranty are described below and must be visibly inspected from a distance of ten (10) feet. Breakage – CGI warrants against stress cracks in glass for a period of one (1) year from shipment (removal and installation excluded). Other imperfections such as scratches or reflected distortions from a tempering or heat strengthening process are to be expected and are not covered. Laminated Glass – CGI warrants that for a period of five (5) years (ten (10) years with SGP interlayer) from shipment under normal conditions of use, that the glass shall be free of defects resulting in material edge separation or obstruction of vision from glass delamination. Further, glass delamination is covered under warranty only if the area of delamination materially obstructs vision through the glass and exceeds one inch in length and is visible at least ½ inch beyond the frame. Insulated Glass – CGI warrants that the sealed glass component of insulated glass shall be free of defects resulting in material obstruction of vision or film formation caused by dust or moisture on the internal surface of a sealed unit for a period of twenty (20) years from shipment.

Warranties are voided if high pressure cleaning or unapproved abrasive or harmful solvents and/or cleaners are used or third party applied film, paint or coatings are applied. Warranty is void if CGI product maintenance instructions are not followed. Painted vinyl finishes shall not blister or peel for the life of the product.

Owners Responsibility

Refer to and follow CGI's product maintenance instructions, as non-adherence will void all items contained in this warranty. Caulking or other third party applied products and components are not covered. Pressure cleaning or subjecting units to high pressure spray of any kind voids this warranty. Condensation on products, which is a common occurrence, does not indicate a defect in the products and is not covered by this warranty.
